

Tell-Tale™ Break Check Valve

JONES®

Cutaway shown for details

PRODUCT FEATURES

- Breaks cleanly and reliably with traffic impact.
- Minimizes physical damage and water loss.
- Minimizes water hammer when activated.
- Small “Tell-Tale” water stream signals damage, insufficient to cause property damage.
- Does not affect normal Hydrant use or operation.
- Adapts to new or existing Jones® brand Hydrants.
- Tall or short vertical flanged inlet and elbow styles.
- Available 6 or 8 bolt-hole vertical flanged inlet pattern.
- Also available as 90° Shoe, with Flanged, MJ, Mueller® AquaGrip®, or Slip-On Inlet configurations.
- Easy to reset (no springs).
- Ductile Iron, Bronze, and Stainless Steel construction.
- Extension kits available 6” – 24” (150mm – 600mm).
